Another FREE staffing opportunity...

Thanks for hearing, Harvey. If someone wants to claim him, what is the process?

Sincerely,

Peter

**Subject:** EPA Rotational Opportunity for VA

The Environmental Protection Agency participates in a program where they detail executive talent to other agencies for broadening opportunities.

It's at no cost to the gaining agency as the detailed executive would remain on EPA's roles. Reginald Allen (Title below) is interested in a possible rotation to VA.

Wanted to share his resume and bio for consideration of an opportunity within VA.

Preferences: Northern Virginia would be great to avoid the commute - but DC works as well. Open to anything but something in VA HQ would be wonderful to get an overview of the entire department

Great man, I hope VA can use him.
